## SOCIAL BIOLOGY

## Volume 31, 1984

AFRICA: subfecundity in, 211; breastfeeding in Kenya, 279–289
Age at marriage: influence of on fertility in Bangladesh, 59–74
Age-discrepant marriages: cross-national comparison of Canadian-American trends, 18–27
Ahlburg, Dennis A., 201–207
Alexander, Richard: bk. rev., 178–180
Altitude: and crude birth rates in Bolivia, 292–294
Amenorrhea. *See*-Postpartum amenorrhea.
American Frontier: fertility limitation among population of, 140–159
Anderton, Douglas L., 140–159
Andhra Pradesh: distribution of Malas in, 108–113; selection intensities in, 114–119
Assortative mating: genetic implications of, 245–246; review of evidence for, 246–256; sociological and psychological theories of, 259–268; and marital satisfaction, 269–272
Austrian, Geoffrey D.; bk. rev., 181–182
*Ayllu:* in Bolivia, defined, 290–291

BALLWEG, JOHN, 232–242
*Banbury Report II. Environmental Factors in Human Growth and Development:* bk. rev., 175–178
Bangladesh: influences on fertility behavior in, 59–74
Barbados: postpartum amenorrhea in, 308–320
Barden, Howard, 1–17, 175–178, 185–200
Bean, Lee L., 140–159
Blood pressure: familial aggregation of in Israel, 75–90
Blurton-Jones, N., 321–323
Bolivia: fertility and land tenure in, 290–297
Breastfeeding: in Kenya, 279–289

CAMPBELL, ARTHUR A.; bk. rev., 175
Canada: age-discrepant marriages in, 18–27
Castes: selection intensities among in India, 114–119
Catholic women: contraceptive methods used among in the U.S., 225–226
Chaudhury, Rafiqul Huda, 59–74
Chitoor District: distribution of Malas in, 108–113
Colombia: postpartum amenorrhea in, 308–320
Commodity aspirations: in Easterlin's Relative Income Theory of Fertility, 201–207
Complementarity: theory of in assortative mating, 257–259
Congenital hypothyroidism: costs and benefits of screening for, 185–200
Constandse-Westermann, T. S., 175, 323–324
Contraception: factors affecting the choice of among married U.S. women, 222–231; patterns of among Philippine women, 232–242; use of in Kenya, 282
Cost-benefit analysis: of screening for PKU in Wisconsin, 1–17; of screening for congenital hypothyroidism in Wisconsin, 185–200
Costa Rica: postpartum amenorrhea in, 308–320
Crimmins, Eileen M., 160–170

DALY, MARTIN: bk. rev., 321–323
*Darwinism and Human Affairs*: bk. rev., 178–180
Demographic transition theory, 209–210

EASTERLIN, RICHARD A.: paper by, 160–170; commodity aspirations in Relative Income Theory of Fertility of, 201–207
Edmonston, Barry, 181–182
Education. *See* Female Education
Endogamy: among the Malas in India, 108–113
Epstein, Elizabeth, 243–278
*Evolution Now: A Century After Darwin:* bk. rev., 171–175

FAMILY SIZE: and household type in Maharashtra, 91–100
Female education: and fertility in Bangladesh, 59–74; effect of on fertility in Mexico, 298–307
Female labor force participation: influence of on fertility in Bangladesh, 59–74
Fertility: influences on in Bangladesh, 59–74; limitation of in an American Frontier population, 140–159; and commodity aspirations in Easterlin's Relative Income Theory of, 201–207; and subfecundity in Mexico, 208–221; and assortative mating, 245; and education, 251; and land tenure in Bolivia, 290–297; effect of female education on in Mexico, 298–307. *See also* Natural fertility.
Frontier population: fertility limitation in, 140–159
Fetal sex diagnoses: and sex preselection, 120–139

Findley, Sally E., 120–139
Findley, Thomas W., 120–139
Friedlander, Y., 75–90

GENDER PREFERENCE: in the Philippines, 239–240. *See also* Sex preselection.
Genetics: and the implications of assortative mating, 245–246
*Genetische Herkunft und Zukunft des Menschen*: bk. rev., 323–324
Godoy, Ricardo A., 290–297
Guttman, Ruth, 243–278

HAWAII: marriage patterns in, 101–107
*Herman Hollerith: Forgotten Giant of Information Processing*: bk. rev., 181–182
Holden, Alan E. C., 40–58
Holian, John, 298–307
Household type: in Maharashtra, 91–100
Hunt, V. R.; bk. rev., 175–178
Hypothyroidism. *See* Congenital hypothyroidism.

INCOME: influence of on marriage patterns in Hawaii, 101–107
India: Household type and family size in Maharashtra, 91–100; distribution, endogamy, and isolation of Malas in, 108–113; selection intensities of castes in, 114–119
Infant mortality: and socioeconomic status, 28–39
IQ: assortative mating for, 249–250
Israel: familial aggregation of blood pressure in, 75–90

JEJEEBOY, SHIREEN J., 91–100
Jerusalem: familial aggregation of blood pressure in, 75–90
Johnson, Ronald C., 101–107
Jukumani: land use of in Bolivia, 290–297

*KANTU RUNAS*: in Bolivia, defined, 290
Kark, J. D., 75–90
Kenya: breastfeeding in, 279–289
Kessel, Raymond, 1–17, 185–200
Knodel, John, 308–320
Korea: postpartum amenorrhea in, 308–320

LAND TENURE: and fertility in Bolivia, 290–297
Lee, Eun Sul, 208–221
Levine, Louis, 171–175
Lewis, Gary, 308–320

MACDOWELL, MARTIN, 221–231
Maharashtra: Household type and family size in 91–100
Malas: distribution, endogamy, and isolation of, 108–113
*Manual of Fertility*: bk. rev., 175
Marital satisfaction: and assortative mating, 269–272
Marriage patterns: in Hawaii, 101–107
Mate selection in man: evidence, theory and outcome of, 243–278
Mahler, Barry, 178–180
Mental retardation: levels of in congenital hypothyroidism, 197–198
Mexico: parity distribution and socioeconomic development in, 208–221; effect of female education on fertility in, 298–307
Miller, Warren P., 40–58
Mindanao: demographic and contraceptive patterns among women in, 232–242
Mineau, Geraldine P., 140–159
Mott, Susan, 279–289
Murty, J. S., 114–119

NATURAL FERTILITY: estimation of, 160–170
Natural selection: among caste groups in India, 114–119
Neonatal screening: and congenital hypothyroidism testing, 188

PAIGE, JEFFREY M., 324–327
Paige, Karen Erickson, 324–327
Parity distribution: in Mexico, 208–221
Passarge, Eberhard: bk. rev., 323–324
Peru: postpartum amenorrhea in, 308–320
Phenylketonuria. *See* PKU.
Philippines, The: demographic and contraceptive patterns among women in, 232–242
PKU: cost-benefit analysis of screening for in Wisconsin, 1–17
*Politics of Reproductive Ritual, The*: bk. rev., 324–327
Postpartum amenorrhea: in developing countries, 308–320
Potter, Robert G., 120–139

RAO V. VENOGOPAL, 114–119
Reddy, P. Chengal, 108–113

SCHUETT, VIRGINIA E., 1–17
Scott, Eugenie, 324–327
Screening programs: for congenital hypothyroidism, 185–200
Selection intensity: among caste groups in India, 114–119
Sex diagnoses. *See* Fetal sex diagnoses.
*Sex, Evolution, and Behavior*: bk. rev., 321–323
Sex preference. *See* Gender preference.
Sex preselection: and fetal sex diagnoses, 120–139
Shain, Rochelle N., 40–58
Smith, John Maynard: bk. rev., 171–175
Smith, M. K.: bk. rev., 175–178
Society for the Study of Social Biology: description and goals, 183, 328
Sociobiology: theory on mating strategies of, 245–246
Sri Lanka: postpartum amenorrhea in, 308–320

Sterilization: preoperative ambivalence of tubal ligation and vasectomy wives, 40–58
Stockwell, Edward G., 28–39
Subfecundity: effects of on the modernization/fertility relationship, 208–221; in developing nations, 210–212
Sub-Saharan Africa: subfecundity in, 211

TAN, CLARITA F., 232–242
*Taseros*: in Bolivia, defined, 290–291
Thailand: postpartum amenorrhea in, 308–320
Trent, Katherine, 208–221
Tubal ligation: and preoperative ambivalence of wives, 40–58

VASECTOMY: and preoperative ambivalence of wives, 40–58
Veevers, Jean E., 18–27

WICKS, JERRY W., 28–39
Willigan, J. Dennis, 140–159
Wilson, Margo: bk. rev. 321–323
Wisconsin: cost–benefit analysis of screening for PKU in, 1–17; cost–benefit analysis of screening for congential hypothyroidism in, 185–200
Worth, D.: bk. rev., 175–178
